

**Invited Speaker Series in Educational and Counselling Psychology
School / Applied Child Psychology
McGill University**

Friday, September 21st, 2018

**Two-part workshop: 9:30 - 12:00 pm & 1:30 - 3:30 pm
(can attend either or both sessions - lunch is offered by TECC BISTRO)
3715 Peel Street - Coach House, room 200 (CH 200)**

**Cognitive Assessment for Intervention
& Use of the Woodcock-Johnson IV for
Assessment of Dyslexia**

Fredrick A. Schrank, PhD, ABPP
WJ IV Senior Author &
*J. William Fulbright Specialist in School/
Applied Child Psychology*

Join author Dr. Fred Schrank for this two-part workshop on the Woodcock-Johnson IV.

9:30 am to 12:00 pm. Cognitive Assessment for Intervention. Gain perspective about how a focus on the Cattell-Horn-Carroll (CHC) theory of cognitive abilities can be used to link assessment results to instruction and make recommendations for an individualized education plan. Learn how to select the WJ IV cognitive and oral language tests to administer using the core-selective evaluation process, including how to determine if additional testing is necessary.

1:30 pm to 3:30 pm. Use of the WJ IV for Assessment of Dyslexia. Learn how the WJ IV can be used as part of a comprehensive evaluation for assessment of a reading disability following the recommendations outlined by the WJ IV authors and reading evaluation specialists. This session will help you choose the recommended WJ IV tests to administer that will help determine the presence and severity of dyslexia.

**SPACE IS LIMITED! PLEASE RSVP by Tuesday, September 18th by e-mailing
Elizabeth Leong at elizabeth.leong@mail.mcgill.ca**

**Sponsored by the School/Applied Child Psychology Program (Department of ECP) and the
